**Plants Seek
Torrance Site**

That a number of manufacturers
with Long Beach and Los Angeles
plants are looking to Torrance for
locations was revealed recently by
M. R. Osburn, president of the Do-
minguez Land Corporation.
The area needed for the new
plants runs from five to fifteen
acres, Mr. Osburn said.
He also announced that two in-
dependent refinery operators were
figuring on two fifty-acre parcels
in the big 350-acre tract now be-
ing subdivided by the Dominguez
Land Corporation.
One refinery is now completing
the first units of its plant on the
west side of Torrance.

The developments in the Tor-
rance oil field are causing the re-
finers to look favorably on loca-
tions within the vicinity of Tor-
rance, as the sites are within easy
reach of the harbor.

The factories in Torrance at the
present time, particularly those
using a large quantity of fuel, are
looking forward to a cheap fuel
supply within the near future.

The Peterson-Barker Syndicate's
well on the 100-acre Edens lease
on the east side of Torrance and
on the edge of the industrial dis-
trict, is showing up well.

WILL OPEN MAY 15
E. A. Kelly announces he will
open a men's furnishing store in
the Brooks building, on or about
May 15. A full and complete line
of gents' furnishings will be car-
ried at popular prices. Mr. Kelly
has had years of experience in this
line and comes to the city well
recommended as being a progres-
sive business man.

**Travel Grows
To California**

An announcement is made by
the Santa Fe railway that the in-
flux of people into California by
that line during the first seventeen
days of April exceeds that of last
April by 41 per cent, and that
there is every indication the pro-
portion will exceed that percent-
age for the balance of the month.
Although the California Limited
has come in in two sections every
day, and crowded, it is announced
that the regular overland trains
of the Santa Fe are bringing in
a much greater proportional addi-
tion to the population that the
Limited, an indication, the railroad
officials state, that the larger
travel is composed of settlers.

It is pointed out that the April
travel is, as a rule, comparatively
light, as it immediately precedes
the opening sale of summer excu-
sion tickets.

**New Record By
Motor Thieves**

Auto thieves are hanging up a
record for car thefts, having taken
nearly \$1,000,000 worth of motor
cars from Southern California mo-
torists this year, according to a re-
port issued by the theft bureau of
the Automobile Club of Southern
California.

According to records on file,
there were 956 automobiles taken
during January, February and
March, while for the same period
last year the thieves got away
with only 635. An approximate
valuation of \$970,000 is placed on
the machines stolen, say auto club
detectives.

Of the cars taken by the thieves,
641 have been recovered, while 315
are listed as "lost" at the present
time, representing a loss to motor-
ists of approximately \$350,000 in
three months. Last year at this
time, despite the smaller number
of cars stolen, there were fewer
recoveries, indicating that the au-
thorities battling the auto thieves
are mastering to a great extent,
the canny efforts of the theft
gangs.

**DOPE ON
THE MALIBU**

Definite information for the
thousands of motorists who an-
nually spend their Saturdays and
Sundays on the beach known as
"the Malibu," lying between Santa
Monica Canyon and Topanga Can-
yon, has just been issued by the
state highway office through the
touring bureau of the Auto Club
of Southern California.

From this time on the Malibu
Drive will be open to motorists
from Santa Monica Canyon to what
is known as Seaside Camp, a dis-
tance of a mile and a half from
the canyon. From this point to the
old Inceville, the motion-picture
village located on the coast, the
road will be positively closed at
once. From Inceville to Topanga
Canyon, the coast road will be
closed to motorists on Saturdays
and Sundays unless the motorists
are equipped with a pass issued
by the State Highway Commission
or the contractor on the work.

It is expected that by Sun-
day, May 6, the Malibu Road from
Inceville to Topanga and thence
to Las Flores Canyon will be com-
pletely paved and open to the
beach-campers. At that time the
Santa Monica-Seaside Camp section
of the road will be closed and it
will probably be six or eight
weeks before autos can operate on
that section.

A WISE OLD GEESER

There was an old geeser, he had
a lot of sense. He started up a
business on a dollar eighty cents.
The dollar for stock and the eighty
for an ad, brought him three love-
ly dollars in a day, by dad. Well,
he bought more goods and a little
more space, and he played that
system with a smile on his face.
The customers flocked to his two-
by-four, and soon he had to hustle
for a regular store. Up on the
square where the people pass, he
gobbled up a corner that was all
plate glass. He fixed up the win-
dow with the best he had and told
them all about it in a half-page
ad. He soon had 'em coming,
and he never quit, and he didn't
cut down on his ads one bit. And
he's kept things humming in the
town ever since, and everybody
calls him the merchant prince.
Some say it's luck, but that's all
bunk; why, he was doing business
when the times were punk. People
have to purchase and the geeser
was wise—for he knew the way
to get 'em was to advertise.
